EKO DECO INCABINET RECYCLING BIN

24L

FEATURES

- In cabinet bins are perfect for households who have limited floor space and do not want to have a recycling bin in view.
- Built with a sturdy steel construction to allow you to fit securely to the inside of your cupboards, the bins are on ball bearings allowing you to pull out the bin with the handle for disposal and emptying.
- 20-litre waste bin to the rear and a small 4 litre compartment for segregating recyclable materials.

SPECIFICATIONS

- Durable materials.
- Steel frame for mounting.
- Handled rear bin for removal and emptying.
