96L

Capacity

3 x 32-litre bins

Durable plastic construction

TECHNICAL SPECIFICATIONS

ENVIROSTACK TRIPLE 96L

FEATURES

- Made in the UK from durable wipe-clean plastic, the unit includes three 32-litre recycling bins that stack on top of each other to create a fully-functional recycling system.
- Customise each receptacle with the WRAP compliant colour-coded lid of your choice, with six different options available.
- Choose from black bases or coloured bases to match your chosen waste streams.

SPECIFICATIONS

- Durable plastic construction.
- 96-litre capacity (3 x 32-litre bins).
- WRAP compliant colour-coded lids and recycling graphics.
- Sack retention system.
- 6 different waste streams available.
