TECHNICAL SPECIFICATIONS

HOODED OUTDOOR WASTE CONTAINER

100L

FEATURES

- A popular choice for shopping centres, public parks, large business premises, schools, and leisure facilities, this robust receptacle is made from durable polyethylene, equipped with a galvanised liner, and it has a huge total capacity of 100 litres, making it ideal for high-traffic areas.
- UV protection for optimal weather resistance and, it features an integrated locking system to prevent tampering and unauthorised access.
- You can secure it to the ground with the optional purchase of fixing bolts, and close the open apertures with rubber flaps if required.

SPECIFICATIONS

- Removable lid with large apertures.
- Equipped with an integrated locking system to prevent tampering.
- Rubber push flap option designed to make entry difficult to the bin.
