32L
Capacity

Single recycling stream

Ideal for crushable recycling such as
plastics and cans

TECHNICAL SPECIFICATIONS

JOSEPH JOSEPH RECYCLING COLLECTOR

32L

FEATURES

- Single-compartment recycling bin consists of a generous 32-litre compartment for the collection of a single recycling stream.
- The lid features a one-way flap that helps trap items as they are pushed down, which allows more items to be placed in without popping back out.
- Deep lid rim hides messy liner overhang.

SPECIFICATIONS

- 32 Litre total capacity.
- Ideal for crushable recycling such as plastics and cans.
