TECHNICAL SPECIFICATIONS

ZEUS 2 BAY RECYCLING STATION

160L

FEATURES

- Made from durable epoxy-coated galvanised steel and equipped with two inner compartments, each with a generous capacity of 80-litres.
- Sits neatly up against the wall, without taking up valuable floor space.

SPECIFICATIONS

- Powder-coated galvanised steel.
- Includes 2 x 80-litre compartments for a combined total capacity of 160-litres.
- Customise with the 2 waste streams of your choice.
- Recycling labels supplied as standard.
- Also available in a 3-bay option.
